WE ARE A **DEDICATED** GUIDE TO EVERYTHING ALTERNATIVE AND ROCK IN THE NORTH OF ENGLAND, WORLDWIDE AND WE'VE BEEN AT THE TOP OF OUR GAME SINCE GOING ONLINE IN SEPTEMBER 2008

Our magazine and website as platforms are original, influential, and always useful. The web and print magazine is essential reading for culture and music fans in the north of England alongside students, and artists looking for opportunity and variety. They look to the magazine and its advertising to showcase, and to recommend the best on offer and have an active interest in shopping, music, art, film, fashion, travel and new experiences.

It is these shared interests and values, together with a common love for alternative and rock music culture that draws people to the magazine, and will bring your brand to their attention.

Across each of our media platforms, we are creating an engaged reader community that will be highly receptive to your advertising as a welcome guide to their future purchases.

We can apply the same creative design, photography, and art to your advert as you'll find in our editorial, to help your message cut through to a receptive audience and prompt action. We see and treat the advertising in our pages as providing a complementary service to our readers – highlighting the very best products, services, and experiences that fit with their lifestyle – not just something that funds our publishing dreams.

As such, we believe that your advertising should be integrated into the magazine as much as possible, making consumers more receptive to its presence, and making it work harder in the process.

WE TARGET 18 - 40 YEAR OLDS WITH A BALANCED EDITORIAL APPROACH TO INTEREST ALL. A SOUNDSPHERE MAGAZINE **READER** IS:

WHY ONLINE ADS ARE BETTER THAN PRINTED ADS

In tough economic times, businesses need to know exactly what their marketing budget has achieved, beyond estimated circulation figures. Here are a few of the key reasons why online advertising is replacing many traditional offline marketing channels such as print:

- You can track it easily. Online advertising is transparent - the data speaks for itself and conversions are measurable
- You can target your perfect customer better off the back of this data
- You can reach a specific segment based on location, areas of interest and context of the online content
- You can reach a wider coverage of your audience online
- Online advertising is faster than offline - your message is sent out the moment your ad is uploaded, meaning no waiting for print or post
- You are only spending money on marketing to the people you want to sell to
- There's an immediate call to action - by clicking on your link, consumers can access more information, make a direct purchase or register for newsletters or services
- Online advertising invites communication between your business and your customers, as they can comment and leave feedback
- The web is growing exponentially whilst the circulation of print is not
- There is flexibility of paying only for qualified leads, clicks or impressions. Print ads demand payment upfront irrespective of the results
- It's cheaper than print and affords far greater return on investment
